

Hey I live in Atlanta and I think that it is great that I have a channel that I can get usefull traffic updates.. If you take this away you are wrong and it is just not right that you can limit ones free speach with blocking of weather and traffic ... really GROW UP ... Leave it the way that it is I LOVE XM and it is the best thing ever it if anything it will save lives .. This is what I mean no changing of cds fumbling around the car looking for that fav cd .. It is on XM and NOW that I have 182 atlanta traffic that is awesome .. dont take this away from us because this is a service that Im paying for and you have no say in what I can or can not pay for..
